

Dining Advantage® by Entertainment®

Dining Advantage is an extension of the Entertainment® Promotion Network, designed for corporations to provide as a reward for their customers or employees. The product drives additional consumers to your business and provides you with more exposure.

Here's how it works

- Consumer receives a Dining Advantage code/card as a reward.
- Consumer signs up for a Dining Advantage account (or logs in if already a member).
- Code is entered and the promotional value loads onto their account.
- Members select offers that can be used immediately or saved for future use.

The Dining Advantage mobile and online printable coupons are redeemed the same way as through the Entertainment® member site and mobile app. This makes it easy for staff to recognize an Entertainment® offer - Just look for the crown!

*Rewards card/code is for visual purposes only and not redeemable in-store or for cash.
