

Entertainment® Mobile Offers Made Easy

The Entertainment® Mobile App drives savvy consumers to your business to redeem your offers, right from a smartphone or tablet!

How It Works:

Look for:
Revolving logo
Promo Code / Barcode
Redemption ID
Expiration date

1

Customer finds the offer they wish to redeem and selects the mobile redemption option. On the popup, they confirm that they are ready to redeem.

2

Customer presents your staff with the mobile coupon. A revolving logo indicates a live coupon. Your staff applies the discount and clicks "Done."
(If your staff forgets to hit Done, no worries, the coupon redeems itself in 10 minutes.)

3

Success! The customer has received their discount, and the offer will now be marked redeemed and no longer available for that Membership.
